

# LIBERIA BUSINESS AWARDS (LBA)

- Catalyzing Business Excellence & Economic Transformation
- A national platform accelerating MSMEs, startups, and private sector growth in Liberia.

# Problems

Liberia's MSMEs Are Underserved, Under-Recognized, and Under-Connected

1. Over **80% of Liberia's workforce** operates in the informal sector, limiting access to finance, visibility, and growth opportunities.
2. High-potential businesses lack **credible recognition**, making it difficult to attract partners, investors, and customers.
3. Limited access to **business training, mentorship, and data-driven support**.
4. Fragmented communication between entrepreneurs, government, investors, and development partners.
5. No national platform consistently **tracking, celebrating, and scaling business success**.

# Our Solutions:

## The Liberia Business Awards Ecosystem

LBA is not just an award. It is a **business growth engine**.

1. National Business Recognition Platform
2. Annual Awards & Gala Ceremony
3. Business Training, Mentorship & Capacity Building
4. Investment & Partnership Linkages
5. Digital Business Community & Data Hub

LBA creates **visibility, credibility, and opportunity** for Liberian enterprises.

# Market Fit & Opportunity

## Total Available Market (TAM)

**USD 120M – 180M annually  
(Liberia)**

## Serviceable Available Market (SAM)

**USD 25M – 40M annually**

## Serviceable Obtainable Market (SOM)

**USD 2.5M – 5M within 3–5 years**

## Supporting Context

- MSMEs are the backbone of Liberia's economy, accounting for the majority of employment and nearly half of GDP (World Bank, UNDP Liberia).
- Across Sub-Saharan Africa, there are 40–45 million MSMEs, employing over 80% of the workforce (World Bank).
- Private sector development is one of the largest donor-funded sectors in Liberia, supported by institutions such as UNDP, World Bank, AfDB, EU, USAID, and others.
- The African digital economy is projected to grow significantly toward **USD 700B+ by 2050**, but LBA positions itself as a national gateway, not a continental platform at this stage.
- There is no central, trusted national business recognition and data platform in Liberia, creating a clear gap for LBA to occupy.

## Total Available Market (TAM)

- Liberia has an estimated 180,000–220,000 MSMEs, the majority informal.
- MSMEs contribute about 40–50% of GDP (World Bank, UNDP).
- Annual spending on MSME support, private-sector development, events, training, grants, and ecosystem programs by government, donors, NGOs, and corporates is conservatively estimated between **USD 120M–180M**.

## Serviceable Available Market (SAM)

- Approximately 35,000–50,000 MSMEs are growth-oriented, registered, or semi-formal and actively engage with platforms, programs, and visibility opportunities.
- Includes spending on recognition programs, business development services, branding, training, events, and data platforms.

## Serviceable Obtainable Market (SOM)

- 8,000–12,000 active businesses realistically reachable through LBA memberships, awards participation, partnerships, data services, events, and digital platforms.
- Represents 6–12% penetration of the SAM over time.

# WHY NOW

## Timing Is Critical

- Strong national focus on **private sector-led growth**
- Rising youth entrepreneurship and startup culture
- Increasing donor and corporate interest in **impact-driven MSME programs**
- No dominant national awards-plus-support platform in Liberia  
LBA fills a **clear structural gap** in the ecosystem.

# REVENUE PERFORMANCE & PROJECTIONS (2021–2025)

## Liberia Business Awards Annual Revenue & Growth Story

Year	Revenue	Growth Narrative	Revenue Model
2021	\$0 – \$500	Concept & groundwork phase. LBA operated as a voluntary initiative focused on research, interviews, and ecosystem mapping rather than revenue generation.	<b>Current &amp; Near-Term Revenue Streams</b> <b>1. Awards Participation Contributions</b> <ul style="list-style-type: none"><li>Finalist and winner participation support fees</li><li>Trophy, certificate, and ceremony-related contributions</li></ul>
2022	\$1,500 – \$2,500	Early traction phase. Small income generated through certificates, documentation support, and limited partnerships during business engagement activities.	<b>2. Partnership &amp; Institutional Support</b> <ul style="list-style-type: none"><li>Corporate partnerships</li><li>Development organization collaborations</li><li>Media and ecosystem partnerships</li></ul>
2023	\$5,000 – \$8,000	Expansion of engagement. National business surveys, recognition activities, and structured outreach increased visibility and modest revenue.	<b>3. Event &amp; Experience Revenue</b> <ul style="list-style-type: none"><li>Gala tables and VIP access</li><li>Exhibition and showcase booths</li><li>Ticketed side events and forums</li></ul>
2024	\$12,000 – \$17,000	Market validation phase. Growing trust, recognition credibility, and demand for visibility led to increased participation and support contributions.	<b>4. Digital Platform Revenue (LBA 3.0)</b> <ul style="list-style-type: none"><li>Business directory listings (basic free, premium paid)</li><li>Featured business visibility</li><li>Data insights and reports (institutional use)</li></ul>
2025 (Projected)	\$20,000 – \$30,000	Transition to structured monetization with LBA 3.0, including formal partnerships, awards participation contributions, and platform-driven services.	<b>5. Recognition &amp; Branding Services</b> <ul style="list-style-type: none"><li>Business spotlight features</li><li>Success story publications</li><li>National and county-level recognition programs</li></ul>

# GROWTH ROADMAP

## What We've Already Built

- A recognized national business engagement brand
- LBA 1.0. Business interviews and ecosystem discovery
- LBA 2.0. National survey and recognition of high-impact organizations
- Trusted relationships with entrepreneurs and ecosystem institutions
- Active digital presence amplifying Liberian business success stories
- A clear pathway to LBA 3.0 as the official national scale-up

# COMPETITIVE LANDSCAPE

Category	Existing Actors	LBA Advantage
Awards	One-off events	Continuous ecosystem platform
Training	Fragmented NGOs	Integrated recognition + training
Media	Short-term publicity	Long-term credibility & data
Networking	Informal	Structured & national

**LBA is the only platform combining all four.**

# Social Impact

## National Impact Alignment

- **Job Creation** – MSME growth fuels employment
- **Youth & Women Empowerment** – Targeted inclusion
- **Local Production** – Promoting Made-in-Liberia brands
- **Investor Confidence** – Transparent recognition standards
- **Private Sector Growth** – Stronger GDP contribution

Aligned with **SDGs 1, 5, 8, 9, and 10.**
